

CV

Evangelia Timotheou BSc, MSc

Senior Clinical Embryologist, Lab Director Assisting Nature

Evangelia Timotheou received her Bachelor of Science degree in Biology from University of Bologna, Italy. Her thesis included research about the influence of different culture systems in human ovarian tissue preservation after cryopreservation.

Evangelia began her embryology career at University Hospital Sant'Orsola-Malpighi, Institute of Gynecology & Obstetrics, Human Reproduction Unit, Bologna, trained by Raffaella Fabbri in freezing/thawing and culture of human ovarian tissue.

She completed her internship in IVF techniques at Ravenna Hospital, Italy and American Fertility Services in New York.

She was recruited as clinical embryologist in various IVF Centers in Greece (Patras, Athens, Alexandroupolis and Thessaloniki).

She obtained her MSc. in Reproductive Science from University of Athens, Medical School. Her research included use of metabolomics in in-vitro fertilization for the embryo development and their relation with the genetic profile of women.

She is the Laboratory Director of Assisting Nature and she is responsible for all functions of the clinical laboratory, the quality assurance and quality control of the Embryology Laboratory.

She has co-authored numerous research journal articles in her field and is ESHRE certified Clinical Embryologist.
